

Whether you represent a small business, non-profit organization or an association a web presence is now something people seek and expect.

WHY GET A WEB SITE?

- A great place to put brochures, manuals, support information or any other literature on your business or organization
- A cost effective way to distribute and publicize that message
- Communicate your message 24 hours a day, 7 days a week
- Get your information out globally

WEB SITE SERVICES

- Complete design for a new web site
- Redesign your existing web site
- Make additions and enhancements to your existing site

ADDITIONAL SERVICES

- Document Scanning
- Document formatting and type conversion (including PDF format)
- Graphic Design
- Create Java Applets to suite your needs
- We also have extensive programming expertise in many languages including C, C++, Visual Basic and Java to provide you with the best solution for your needs

WHAT DO I NEED TO GET STARTED?

The short answer is not very much. We can do most of the work for you. Provide us with the information you want to put on your site and we can take care of the rest. We can also help you gather and organize the information you want placed on your site. If you already have some ideas on how you would like your site organized or have a site you want redone, we can work with you from there as well.

ABOUT US

Combining 15 years of software and graphic design expertise, Yanney Software can provide you with a web site or web application that is both visually effective and functionally robust. In the dynamically changing web environment it is important to know that your site is taking advantage of the latest technologies to be effective. Our experienced staff will help you do that.

Contact us today and see how quickly we can get you on the internet at an affordable rate.
